

Job Title: Safety Director
Location: Portland, Oregon
Company: Advanced American Construction, Inc.

Advanced American Construction has a long history of unprecedented, national award-winning success in heavy civil construction. To build on our past and continue to grow, we are performing a nationwide search to find a talented and motivated Safety Director to play a crucial role in the company's future. This role is an exceptional opportunity for the right applicant who is looking for long-term career growth, exciting challenges and a place at the table with the senior leadership team. The right candidate will be flexible, adaptable and committed to continuous improvement.

About Advanced American Construction:

Founded in 1983, Advanced American Construction, Inc. (AAC) is a full service general contractor providing heavy civil/marine/industrial/diving/engineering services to public and private clients throughout the western United States. Our team meets project objectives by providing exceptional service, extensive project experience, state-of-the-art equipment and a commitment to safety.

Visit our website www.CallAAC.com for more information about our history, our projects and our staff.

Essential Functions and Responsibilities:

The Safety Director is primarily responsible for directing and providing health and safety program oversight to AAC. The position oversees development and implementation of behavior based safety practices. Additional responsibilities include:

- Empowering employees to have a safety-first mindset.
- Conduct jobsite audits ensuring compliance with company, state, and federal regulations
- Initiate, coordinate, and direct training specific to job site hazards
- Conduct near miss and accident investigations
- Assist project team in compiling job site specific safety plan
- Manage all aspects of safety reporting to government agencies along with customer specific programs
- Monitor treatment and obtain medical status documentation for injured employees
- Update company safety manual as needed
- Ensure company safety policies are communicated to subcontractors
- Track and renew employee field training and certifications
- Appraise and implement new safety regulations as they relate to AAC operations
- Organize and conduct safety training as necessary
- Must be willing to travel to jobsites throughout the Northwest

Qualifications:

- Excellent verbal and written communication
- 5 years of construction safety experience preferred, ideally in heavy civil/marine construction
- OSHA 30 certified
- Knowledge of state and federal regulations
- CPR/First Aid certified

To Apply: Please email your resume and cover letter to HR@CallAAC.com. Relocation package will be considered for the right candidate. Competitive compensation and benefit package.
